

On April 30th, 2006, nine leaders took it upon themselves to establish Delta Epsilon Psi - Iota Chapter in the city of San Antonio. The Brothers were able to overcome doubters and critics on their journey to become part of this exclusive Brotherhood. By coming together and working as one, the Brothers adopted the principles of Brotherhood, Discipline, and Commitment and relayed the dream that our Founding Fathers had during the establishment of this Fraternity. The Brothers of Delta Epsilon Psi - Iota Chapter pride themselves on helping the less fortunate in the San Antonio environment through their work with South San Antonio ISD in creating the first ever Field Day for the special education department throughout the district. Along with this event, the Brothers partnered up with the I Have A Dream Foundation to raise money for this non-profit organization and impact many of the youth that are helped through this foundation. Other community service events include, but not limited to, Habitat for Humanity, San Antonio Food Bank, Goodwill, Rebuilding Together, Adopt-a-Highway, and many more. As this chapter continues to grow, the Brothers have gained exposure for their contributions in their area, as well as credibility for the Fraternity and chapters nationwide. As with any other organization, the Brothers that cross into this Fraternity understand the time and sacrifice it takes to run and manage all of the internal responsibilities. Delta Epsilon Psi - Iota Chapter is selective in the members they intake, as they take quality over quantity.

## **DELTA EPSILON PSI - IOTA CHAPTER**

As the motto of the Fraternity states, "We don't turn boys into men, we turn men into leaders", the Brothers at Iota Chapter will continue to mold the leaders of tomorrow by overcoming the trials and tribulations of today.
